**ISBN 978-1-62174-044-5**

**SAN 920-3230**

Proceedings are collected by the outcomes of the International online scientific-practical conference, organized by the Department of World Economics and Management of the SI REU for Russian and foreign economists-researches, experts in the field of economics and management. It contains research papers by the winners in various nominations of the conference. The proceedings present the authors' research generalizations of the urgent problems of economics and management, many of which found their way in international practice.
